## PROFILE SUMMARY

Enthusiastic and motivated Java Full Stack Developer with a strong foundation in software development and a passion for building scalable, robust web applications. Proficient in Java, HTML, CSS, and JavaScript, with hands-on experience using front-end technologies such as React and Bootstrap. Possesses solid understanding of backend development including RESTful API design, and relational database management using MySQL.

---

## EDUCATION

**Bachelor of Science in Computer Science**  
Marathwada Mitra Mandal's College of Commerce, Pune.

---

## PROJECTS

### *Movie Search App*

- Built a responsive movie search application using React.js with real-time data fetched from the OMDb REST API.
- Implemented dynamic UI updates, state management with React Hooks, and robust error handling.
- Designed a clean, responsive interface using HTML5 and CSS3 to enhance user experience.

### *Recipe Book App*

- Developed a responsive recipe management application using React.js to add, view, and delete recipes dynamically.
- Implemented state management with React Hooks for form handling, validation, and real-time UI updates.
- Designed a clean, user-friendly interface using HTML5 and CSS3, focusing on usability and responsive layout.
